Announcement

No. 1/2019

## Saha Group Industrial Park Development for an Eco Industrial Town Policy

Saha Pathana Inter-Holding Public Company Limited has developed the Saha Group Industrial Park into an Eco Industrial Town by achieving a balance across five dimensions (physical, economic, environmental, social, and management) to fulfill the vision and policy of developing an Eco Industrial Town. This will lead to the sustainable development of the industrial park, enabling it to coexist harmoniously with the community.

To ensure clearer direction for the operations of Saha Group Industrial Park, Sriracha in its development into an Eco Industrial Town, the Company is committed to the following actions:

1. Develop the land, buildings and infrastructure systems within the industrial park to be environmentally friendly, sufficient, efficient and safe, in accordance with eco-design principles.
2. Create factors that support the growth of the local economy and the well-being of the community, promoting the establishment of community enterprises with environmentally friendly products and services.
3. Support and encourage businesses within the industrial park to use resources and energy efficiently, adopt renewable energy in central activities and production processes, reduce waste and greenhouse gas emissions, and increase the environmentally friendly products.
4. Enhance the quality of life and well-being, including the happiness of personnel within the industrial park, industrial park developers, business operators, and the surrounding community, with a focus on promoting a high quality of life and a positive social environment.
5. Manage the industrial park based on principles of inclusion and transparency, in accordance with good governance principles, for the benefit of all stakeholders.
6. Encourage businesses within the industrial park to engage in activities aimed at reducing costs or improving efficiency in transportation and logistics systems.
7. Encourage business operators within the industrial park to adopt renewable or alternative energy sources.
