### Energy Policy

#### Saha Pathana Inter-Holding Public Company Limited

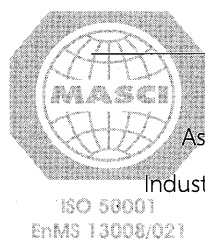

Saha Pathana Inter-Holding Public Company Limited, responsible for managing the central wastewater treatment system at Saha Group Industrial Park – Si Racha, recognizes the importance of energy conservation as a key aspect of business operations and a responsibility of all employees to cooperate in maintaining the energy management system sustainably.

Therefore, the Company establishes an energy policy to serve as a guideline for operations and to promote energy use with maximum efficiency and effectiveness as follows:

1. The Company is committed to implementing and improving the energy management system appropriately by incorporating energy conservation as part of its operations, strictly in compliance with laws and other relevant regulations.
2. The Company is dedicated to continuously improving the efficiency of energy resource usage in alignment with installed industrial technologies and best practices.
3. The Company shall procure machinery, tools, manufacturing equipment, and other necessary services with consideration for the energy efficiency of the products or services.
4. The Company shall set plans and goals for energy conservation each year and communicate them to all employees for understanding and correct implementation, as well as publicize the Company's energy policy to stakeholders.
5. The Company shall analyze, evaluate, control, and reduce energy consumption to continuously improve energy performance in accordance with Specific Energy Consumption (SEC).
6. The Company considers energy conservation as a responsibility of the management and employees at all levels to cooperate in complying with the established measures, monitoring, inspecting, and reporting to the Energy Management Working Team.
7. The Company shall provide necessary support, including personnel resources, budget, working time, training, and participation in presenting ideas to improve energy-related work.
8. The Company shall cooperate or coordinate with the community, governmental organizations, business partners, and interested external agencies to disseminate operations related to energy management.
9. The Company, through the Steering Committee and the Energy Management Working Team, shall review and improve energy policies, goals, and operational plans annually.

Therefore, this announcement is made for acknowledgment.
